Last Monday we had a cow shot and concluded that it was done by some reckless boys while hunting, and allowed the matter to pass. On Sunday afternoon we turned out a much valued hog with a litter of pigs and found her dead, having been poisoned. Miles Orton and His Show.

From Hartford (Ky.) Herald May 4th, 1881. Orton's circus and menagerie which win tered here, gave an exhibition at this their extensive use, by physicians in place last Saturday. To say that it was an excellent performance is only to repeat the general verdict of those who were for tunate enough to attend. We have not space to give a detailed account of the performance, but we feel that we would not be doing justice to ourself if mention were not made of the bareback riding of Mr. Orton himself, and of the trapeze performance of the two midgets, Allie and Bernard, who are said to be the smallest trapeziate in the world, and who certainly are the Smallest ever seen by us. Their feats on the swinging bar were marvels of infantile daring and skill, and seldom equaled by grown-up artists. Their acts can only be appreciated by being seen. Words of course are incapable of expressing our admiration for the little gymnaste

By Universal Accord, AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and

their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken.
